

Voyager Maintenance Solution for Merchants

With more than 6.8 million fleet vehicles in use and operating costs on the rise¹, it's easier to understand why professional fleets are increasingly requiring full visibility over their maintenance expenses. Consumers and merchants are also moving toward contactless transactions and want additional choices beyond card-based payments². We make it easy for you to provide both.

Being part of the nationwide Voyager Network allows merchants to grow their businesses while serving the needs of fleet customers. Beyond those in your own community, drivers and fleet managers from across the country actively seek Voyager Network locations along their routes. Plus, the Voyager Mobile App lists merchants and provides turn-by-turn directions to bring them safely to you.

There are two ways for you to accept fleet payments:

- Voyager Fleet Card
- Voyager Maintenance Solution

Even if you already accept the U.S. Bank Voyager Fleet Card, now is the time to enable the Voyager Maintenance Solution to take advantage of the innovative and easy-to-use cardless technology available exclusively from Voyager. Streamline the entire process from start to finish so you and your team can:

- Count on automated repair orders at agreed costs
- Get real-time credit authorizations without swiping or inserting cards
- Receive payment within 2-3 business days
- Reduce time-consuming invoicing, disputes, chargebacks and collections

Simply put, the Voyager Maintenance Solution helps you to service more vehicles and get paid quickly. Experience the strength and reliability of a network that works for you.
